Introducing: DIGITALL DS302

DIGITALL DS302 was developed for use with the newer, faster dye sublimation printers. **DIGITALL DS302** is approved to print on all major OEM printers, from small desktop formats like Epson, Roland and Mimaki, to large format high speed MS, DGS machines. The powerhouse **DIGITALL DS302** has a higher yield per roll due to increased lengths and has many unique features including:

EXCELLENT DRY TIME

FANTASTIC COLOR AND
TRANSFER RESOLUTION

TACK ELIMINATES
GHOSTING

APPROVED FOR HIGH
SPEED PRINTERS

HIGH INK LOAD
AND SATURATION

LOWERED INK
CONSUMPTION

NO BUCKLING OR
WET COCKLING

OVERALL COST SAVINGS

DIGITALL DS302 will be available in the following sizes:
